Languages: English, French, Italian, German, Spanish, Polish.Q: Xcode error: missing

required architecture armv7s I made new Xcode Project for iOS and tried to run it on iOS Simulator. I selected the closest simulator for me but I got this error: missing required architecture armv7s I tried many things but none helped. A: This error does not occur just because you have an iOS Simulator close to

you. This error occurs because you need to have included something in your project that has an armv7s architecture in your target. Q: How does the Talbuk fighter work? I've tried to figure out how the Talbuk fighter works, but I haven't really found anything to support or refute my idea. The Talbuk fighter is a neutral fighter and its pilot is the only pilot that can use it. It doesn't seem to do anything during the fight, so I don't understand how it's working. I don't think it's the "Talbuk" this fighter as it's not the Talbuk fighter but the next best thing; a copy. How does the Talbuk fighter work and what is its advantage? A: The Talbuk fighter is actually the Tybuk. Tybuk is basically a Talbuk fighter with similar weapon set and health. The Talbuk fighter doesn't have any effect on the fight like a Talb
