Markup Assist guides the user through the process of exporting and importing. The imported objects are automatically linked to the original drawing for easy access. (video: 2:43 min.) DraftSight: DraftSight provides the accuracy and speed needed for accurate document construction. It detects errors and guides the user to fix them before they become problematic. It's ideal for users who need to collaborate with clients, teams, or contractors, as well as for creating complicated master documents. DraftSight helps you avoid errors, whether you create documentation or drawings. Instead of creating multiple, separate drawings for each phase of a project, the DraftSight solution combines them into one drawing, which is distributed among members of the team. DraftSight is available as a standalone product or as part of AutoCAD Add-In. DraftSight DraftSight Version 2023 1. New Prototyping tab and panel in the Expert Settings dialog The New Prototyping tab provides tools and guidelines for creating interactive models and prototypes. You can create interactive 3D models on paper and in software with DraftSight and SketchUp™. (DraftSight and SketchUp are trademarks of Dassault Systèmes.) The New Prototyping tab and panel offer options for defining a project and creating prototypes. With the New Prototyping tab, you can set options for creating a new project or open an existing project. The New Prototyping panel lets you set options for interactive 3D models. You can set rules for trimming, clipping, auto-padding, and auto-layout, and apply those to the model's components. You can also work in the New Prototyping tab or panel to set rules for project creation, including a priority that indicates the order in which model components are created. You can also set rules for loading components in the order you want them to appear in the model. 2. Additional improvements to the UI of the Preferences dialog The User Interface (UI) of the Preferences dialog has been updated, including the following: the screen layout in the New and Existing panes the edit options for the panes the grid and axis labels the Size panel 3. New tabbed drawing templates in the Shared Path dialog You can now create new drawing templates using
