Today marks the release of his new album Zero-One. In addition to the already released single "City Burning," Herbert has also shared this eight-minute video of live performances from the event, shot for his own label, Black Box. Check it out below, and check out the live performances he shared on his Performer section today:Man Accused Of Driving 'Like Crazy'

Kills Wife, Self NEW ORLEANS (WGNO) -- A man accidentally killed his wife in their car Monday night on Baton Rouge Highway, according to the East Baton Rouge Sheriff's Office. The accident happened at around 10:30 p.m. on Baton Rouge Highway in Hammond, near Grand Isle Boulevard. Jacob Craig Wagner, 30, was driving down the highway and claimed his car went into the oncoming lane and hit the back of a Chevrolet Trailblazer. The driver of the Trailblazer struck the back of Wagner's car. Wagner said his vehicle hit the other vehicle and flipped over. According to witnesses, Wagner's car was driving "like crazy" immediately before the crash. Wagner admitted that he was feeling "

What should I do if I'm not a programmer? Installing the latest version of the Windows operating system requires a license key that is usually provided as part of the

official system by Microsoft, but there are third-party software that is capable of emulating this process without requiring a product key. Windows 7, 8, 8.1, and 10 have been using this license process for years, which is why many users have gotten used to this type of hacking process. Why Hack Windows 10? Traditionally, hackers have used the Windows software to bypass security and become completely unhindered. However, as we all know, it is not a very secure way to hack the operating system. This article will provide a user-friendly guide on how you can hack Windows 10 by creating a new valid license key. This tutorial will be

provided in three different parts: 1) Where to download 2) How to install the new license d0c515b9f4

I have written a program that when ran, will keep running - whether or not any more input is received. I used setvtrc for this purpose. How can I set this up? I can't seem to find a way to make it so that the program quits gracefully. Instead, I get the screen filled with: The program stopped working A: You can use the application pattern. For example, in Python: import threading import time class Application: def __init__(self): self.started = False self.running = False self.gui = None def start(self): self.started = True if self.gui: try: self.gui.destroy() except: pass self.running = True t = threading.Thread(target=self.run) t.start() def run(self): while self.started and self.running: self.gui.update()
