Air Live Drive [Win/Mac]

The Windows utility allows you to mount cloud storage services as additional drives, a kind of "Lightning": - It allows the user to see a complete view of the cloud partition from the File Explorer,,, and the Command's line - Each partition can be moved to a different location on disk so you can organize your files - This application doesn't require a running Internet connection in order to operate You can even transfer files from one partition to another partition of the same drive or a different drive by synchronizing them What's New in Version 1.06: - Improved to mount multiple cloud storage - Improve is now less sensitive to the size of the selected partition - Restoring the partition of an existing drive is now more easy - Several bugs fixed Keywords: Cloud storage management, cloud storage mount, cloud storage mounting, cloud storage mounting utitlity, cloud storage mount utility, cloud storage mount utility download, cloud storage mount utility ios, cloud storage mount utility android is now less sensitive to the size of the selected partition This is a free version of Live Mount Live Drive, a Windows program for mounting cloud drives in your system. The goal of Live Mount Live Drive is to allow you to benefit from the contents of your cloud drives and work with them from any app, even while in offline mode. Live Mount Live Drive Description: Live Mount Live Drive mounts cloud drives as local disks in your computer so you can open remote files with any application without having to synchronize or using local disk space. A simple tool with neat real-life applications Down Mount Live Drive mounts cloud drives as local disks in your computer so you can open remote files with any application without having to synchronize or using local disk space. Down to its very basics, you may consider this app as a reverse disk image mounting tool, only that you have your cloud storage clients instead of virtual disks. Those of you that hate constantly going back to the system tray to inspect the contents of all of your cloud storage clients, like Google Drive, Dropbox or OneDrive will rejoice knowing that this app allows you to display that extra storage as extra partitions. Add as many cloud storage services as you want Currently, the app supports over 15 cloud storage services, so it doesn't manner how spread out you are with your online files since you can always have them at hand Syncing is a common issue with these apps since usually, you can only edit files that are on your own disk, which 3a67dffeec
