Shrinkage is the simple measure of money lost due to employee theft or embezzlement. Experts define shrinkage as money left in a business that is not officially recorded and is unaccounted for. For example, say a business deducts a monthly fee for phone service or a security deposit from the invoices sent to its clients, but is never accounted for. These are not necessarily signs of fraud, but rather signs that an employee has been taking money out of the business with no oversight. For smaller companies, the phenomenon of shrinkage is more common than large companies. When you have to rely on sales to survive, cash on hand becomes the lifeblood of your business. You can see where a business's cash reserves are dwindling, especially in tough economic times. Employee Theft Perhaps your business has had a few cases of employee theft in the past, and so you are somewhat familiar with this issue. The problem with theft is that it's a great risk to your business. It might be more tempting to make the wrong decision and just take the money. But if you can catch the employee in the act and bring the individual to justice, the repercussions may save your business from even greater financial peril. Theft is expensive. It's not only the money that you lose, but also the loss of confidence your clients may have in your company. If someone finds out that your employees are stealing from the company, there may be less chance of your clients getting repeat business. People are more likely to find someone they can trust to do business with. Fortunately, there are numerous ways to prevent and detect theft. As an employee, you can make sure that access to
