This is a PnP adventure based on the video game series "The Legend of Zelda". In 2014 the renowned heroes Link and Zelda take on a quest in the remote Kingdom of Hyrule, where they must find the legendary Hylian Shield and a powerful artifact called the Triforce, before they are able to confront the demon Ganon, who has wronged our entire world. The game is set in the world of Hyrule, and will definitely appeal to fans of the legendary games. The party system allows for many different

party configurations, and the story will be realized through your choices. The heroes from the games “The Legend of Zelda” and “The Adventure of Link” return with their great personalities! Characters: Keane - hero of the “The Legend of Zelda” series. Standing next to Link in the combat he is an excellent archer, and can wield the bow well. He also has the most experience in combat. Lana - from the “The Legend of Zelda” series. Standing next to Link in the combat she is a great fighter, and is very able in melee combat. She has not yet gained the knowledge of the Master of Spinjitzu. Snare - she is from the “The Adventure of Link” series. A bounty hunter and mercenary, she is the fastest of the group, and is also the most agile. The Fairy - from the “The Legend of Zelda” series. A fairy who has been riding her horse throughout the adventure, she offers helpful advice and information. The Guardians - the heroes who have fallen asleep. They appear in various forms throughout the game, and are most often as illusions. They are harmless, but can distract the heroes and hinder their progress. The main protagonist of this game is Link. He is a young boy, who through the entire story will remain in the shadow of his older brother and the great hero, our beloved Link. Link is good hearted, but quickly gets angry when his friends are threatened, so be sure to keep your cool. Your enemies are the (so to say) minor villains of Hyrule. They are in fact terrible, and you will have to be prepared to pay the price for taking down a member of the Deku Tree clan. Each enemy has different stats and abilities, so choose a few of the stronger enemies to try to keep the party
