This is the basic and empty application. You can customize the main view by adding a calendar on the left side and by showing various origami animals on the right side. Additional info: The origami animals are drawn using the common square 3D shapes with the help of folding it for making little origami animals (The origami animals included in the application are: turtle, hedgehog, elephant, giraffe, cat, bird, fish, rose, butterfly, dragon, rabbit, tiger and snake). There is also a clock (instead of the standart windows wall clock), The clock shows the current day of the week and the current time. Additional features: In addition to the main view, there are the various settings (In our next versions of the application, we will also include a settings view in the main view): 1. Show seconds in the clock view, 2. Additional 24h support for the clock view, 3. Show larger clock face, 4. Brightness in the clock view, 5. Alternative week start, 6. Map latitude and longitude, 7. Show custom address, 8. The possibility to include a horizontal list of check boxes. The configuration file for different languages is included in the attached ZIP archive. V1.6.5, June 7, 2013 - Bugfix: The switch from the daily view to the monthly view was not working in the the advanced features mode.
