You can query it with an installation > > script in the most common languages (e.g. Python, Perl, Java, > > Bash, C/C++). > > > > I just hope you don't mind my less than strictly legal > reference. For the source archive you are discussing, he specifically states "The source archive comes with a small installation script in the root of the archive. The script would normally take care of the installation, but if you find any problems, feel free to ask on the list. (Posting the link will be sufficient.)" So, perhaps what we can do is ask you to post the link for the source archive in this thread so that we can compare it to the archives we have. > There is a chance that the repository will not have the package yet. > If this is the case, you need to wait until it is available or > find a way to build it yourself. Following some further searching, the following were found: c6a93da74d
