
EASYJET ROUNDED BOOK FONT

a great font for advertisement, for example in an airport, is icon. it has a scalable feature that allow it to adapt to any sized. also, it's not too bold and its serifs look clean and well-balanced. the only downside is that its sizes are limited to 16px, but that is surely an advantage for a variable font. once you decide that a certain font is the one for you, that you just cannot live without and never get rid of, it is time to outfit your brand. we are going to start with the easy part, the logo. think about what kind of feeling you want to create with your design. what would you like people to remember the most about your brand? what would you like to be the main characteristics of your brand? if you are designing a safety letter for your airline, you should always take a look at easyjet. i am sure that the french airline is not the only one that puts emphasis on safety and quality but they have a very striking and distinguishable identity. even at the airport, i am sure that you will be able to spot easyjet and their orange. i love their logo and their colors. their safety signs really are a masterpiece and i have seen many of them. when we have a flight booked and then realize we have forgotten to bring our passport, i am pretty sure that if we meet a easyjet crew member, we will be lucky to receive a friendly smile and a quick answer. i love vueling ! just from the name you understand it is a spanish company, dont you i saw it again in rome and it brought me back to my 4 days in barcelona in 2006. i always smile when i see their logo, their cute and rounded typeface and the precious dot. the hue of yellow matches perfectly with the light gray. their target is young, but the logo also appeals to adults because it is also elegant and refined.
