The investigators of the night of the murder have just arrived in the nazareth area of the city of nazareth today, where the weekend sex attack took place three weeks ago. A suicide bomber was killed in the explosion and ten people were hospitalized. The police spokesman

stated that the explosive device, which the police believe was used in the sex attack, was hidden in an underground tunnel. The attack struck during the middle of the weekend, when tens of thousands of visitors were at the city of nazareth of jesus christ, where according to mewsut rish-s who was present on friday when the attack took place, the mafioso assault on the visitor with a gun and then raped the female visitors. Rish-s said that on friday he was in the area of the city of nazareth of jesus christ, and therefore was able to see the entire violent crime, which involved a murder after the rape. He said that according to his own report, there are two versions of the event. The story reported by rish-s of the first version is as follows: a group of four men wearing ski masks came to the visitors and immediately when the group attacked them with a gun, and then came to rape them. According to another report, which was reported to police by the woman who was raped, she reported that she was approached by a young man from the mafiosi, and then he asked her to go to his house. When she entered the house she was immediately raped. In the third version, rish-s said that he was also approached by another group of mafiosi men in the city of nazareth of jesus christ, in which a stranger raped her. According to a security source in the area, in addition to visitors, on the weekend there were also many foreign workers from south america, who were working on the construction of residential buildings in the area of the city of nazareth of jesus christ. The weekend sex attack in the nazareth area is not the first to have occurred in the area of the city of nazareth of jesus christ, where there have been similar attacks of sexual violence against visitors to the mafioso. According to the security guard, the problem of sexual violence is not new. Experts, however, emphasized that this is the first time that the mafia has claimed responsibility for the incident. Unlike the previous such attacks, where the rapist was never identified, the mafioso were able to claim responsibility for the incident. Experts, however, explained that in the past there have been many incidents of sexual violence, due to the mafia.
