e. license for academic use by general aviation flight department. if licensee is a student and the license is purchased in conjunction with a university or other educational institution with whom jeppesen has a contract, licensee may, for its own personal use only on a device owned by licensee and used on the ground and in aircraft operated by licensee: (i) load the software only on a single device owned by licensee; (ii) load and use the data only with one (1) software application licensed to licensee that specifically consumes the data; (iii) physically transfer the software or data from one device to another so long as the device is owned by licensee; and (iv) print charts from its own licensed copy of the software for licensees use in the cockpit of an aircraft operated by licensee. f. license for commercial use by general aviation individual. if licensee is an individual and the license is purchased in conjunction with a company with whom jeppesen has a contract, licensee may, for its own personal use only on a device owned by licensee and used on the ground

---

and in aircraft operated by licensee: (i) load the software only on a single device owned by licensee; (ii) load and use the data only with one (1) software application licensed to licensee that specifically consumes the data; (iii) physically transfer the software or data from one device to another so long as the device is owned by licensee; and (iv) print charts from its own licensed copy of the software for licensees use in the cockpit of an aircraft operated by licensee.

13. disclaimer of warranties. jeppesen expressly disclaims any warranties of merchantability, fitness for a particular purpose, non-infringement, or the implied warranties of title, quiet enjoyment, quiet possession, or the absence of latent or other defects, including, but not limited to, the implied warranties of merchantability, satisfactory quality, fitness for a particular purpose, and non-infringement of third-party rights, freedom from viruses, and freedom from loss of data. jeppesen does not warrant that the software or related documentation will meet licensee's requirements, that it will be uninterrupted, secure or error-free, or that

---

defects in the software will be corrected.
