So currently my code looks something like this: var parseString = function (urlString) { urlString = urlString.trim(); // stripped of non-word characters except slash var result = urlString.replace(/\\W+/g, '').split("/"); // result will now be of the form: ["home", "search",

```
"exit"] // result[1] = search // result[2] = exit
var domain = result[1].split('.'); if (domain[1]
    == "com") { location.href = domain[
