## What's New in the?

\* Boost the performance of your computer with Game Booster. \* Automatically optimize system settings, Windows registry and applications. \* Help you make your computer perform better and faster than ever. \* Save time and money on buying expensive software and upgrades. \* Intuitive interface designed for everyone. \* One-click setup and fine-tuning tools. \* System & security controls for safe gaming. \* 9 modes to boost performance. \* Play the game by opening the folder or by dragging and dropping the folder onto Game Booster. \* Fine-tune the settings, get full diagnostic, and more. \* Free trial. \* No forced or bundled software required. \* Supports Windows 7, Vista, XP, 2000, 2003, and 2008. \* Keeps the game as it was before the optimization and ready to play after reinstalling the game. \* Doesn't slow down or interfere with your game. \* No risk of permanent changes to your computer. \* Great support on Twitter (@razorgamebooster) and Facebook (www.facebook.com/razorgamebooster). \* Free updates to improve the performance of the software and add new features for years to come. Note: A "Run at startup" checkbox is available in the Startup tab. \* Requires .NET Framework 4.0 or later. \* Requires Intel XDK version 1.11.1 or later. Advanced uninstaller and a few other things like advanced debugging. It is pretty easy to get "crashed" if you don't know what to do with certain functions. Another similar program that is free is called ClickChk. ClickChk is one of the most common utilities in the game improvement category. The reason it is so common is because you can use this program to fix just about anything that is wrong with your computer without doing a lot of work and costing a ton of money. This program makes games load much faster and provides users with a high-performance gaming environment. This program will allow you to choose which of the settings will be automatically adjusted when you run it. Another great thing about this program is that it is free. From: Subject: Posted by: Posted on: What's new in version 3.0.1: \* Detects and removes invalid services.\* Support Win8 and Win8.1.\* Manage Win 10 (and Win 10 x64) upgraded programs.\* In Win10 support RUNDLL. \* Startup/shutdown timing changes.\* Added fast action on right-click in tree items. Download at once: \* Avast Premier 2013 \* Kaspersky Internet Security 2013 - Protect your PC and Internet from viruses, malware, browser hijackers, spyware, rootkits, dialers, Trojans and other malicious
